

I'M HERE

Masterpiece: Tala Al-Waheidi

WHO I AM?

Tala Mohammad Al-Waheidi

26 years old

WHAT IS " I'M HERE "

I'm Here is a community site that aims to take it easy to find jobs for special needs people.

And Why Special Needs:

Special needs make a big part of social life, and most of them doesn't have an active life, which makes them defeat in their life.

So, I find this site to help them to be more active and more productive in the real-life.

TECHNOLOGY I USED:

1-Front End:

- HTML (Hyper Text Markup Language) is the most basic building block of the Web.
- CSS is a language that describes the style of an HTML document.
- Bootstrap 4 is an open source toolkit for developing with HTML, CSS, and JS
- JavaScript (JS)

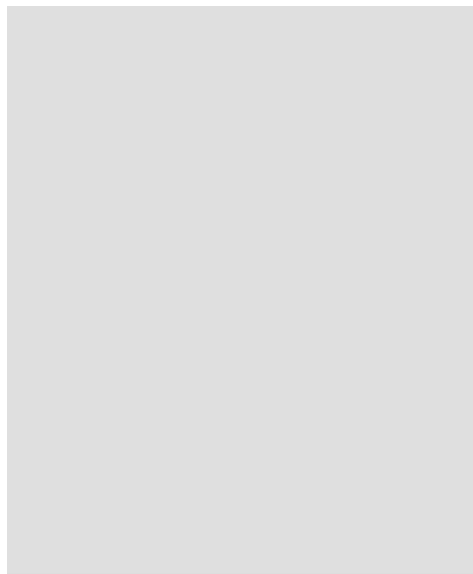

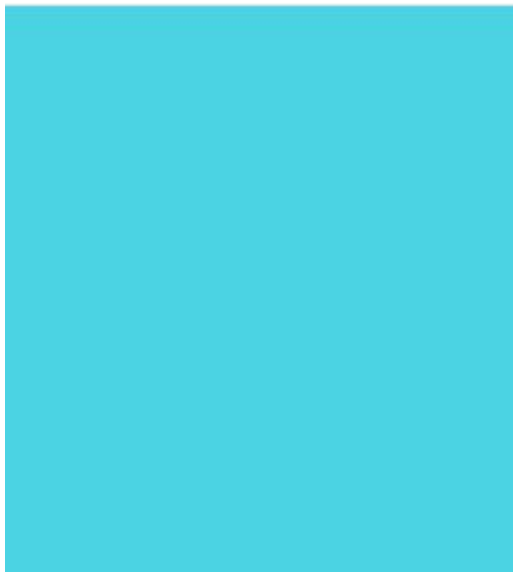

2-Back End:

- PHP is a popular general-purpose scripting language that is especially suited to web.
- XAMPP is an easy to install Apache distribution containing MariaDB, PHP
- Laravel is a free, PHP web framework, intended for the development of web applications.
- MySQL is an open-source relational database management system (RDBMS).

The main features:

1. Login and register page
2. Home page to show all all categories and filter job
3. All jobs page
4. User can show jobs related to category
5. User can apply a job
6. Contact Us page
7. Admin Dashboard page to control of website
8. Admin Can do all crud operations on all website

The main colors:
